This Policy provides a network through which members can receive benefits for allowable services from in-network providers. When using an in-network provider for covered medical expenses, the member is only responsible for applicable deductible, coinsurance and/or copayments of the allowable amount up to the maximum out-of-pocket. When using an out-of-network provider, the member is responsible for payment of billed charges beyond the allowed amount for covered medical expenses. Please note: The member is responsible for full charge of any non-covered medical expense. When you get emergency care or get treated by an out-of-network provider at an in-network hospital or ambulatory surgical center, you are protected from surprise billing or balance billing. For more information about “surprise billing”, visit <https://mountainhealth.coop/members/> and review the information provided under “Surprise Billing”.

**COVERED BENEFITS**

This Policy will pay Covered Medical Expenses incurred for Covered Benefits provided in Section 5 of your policy Document, Covered Benefits: based on the Allowable Fee, Deductible, Coinsurance, and Annual Out-of-Pocket Maximum amounts shown under the Benefit Information section of this Outline of Coverage. If a Copayment applies to a Covered Benefit, it will be indicated below in this Covered Benefits section. For Information regarding Prior Authorization requirements, please see section 6, Utilization Review, Management Program of your policy document.
